

CONTENTS

1. Introduction	1
2. The phase rule	3
3. One- component systems	6
4. Two – component systems	9
5. More complex systems	20
6. The gas laws	25
7. Solutions	31
8. Concentrated solutions	38
9. Simple distillation and partial condensation	47
10. Ammonia	53
11. Benzolized wash oil	59
12. Methyl alcohol	66
13. Ethyl alcohol	71
14. Rectification of binary mixtures	81
15. Rectification of complex mixtures	132
16. Rectification of multicomponent mixtures	137
17. Rectification of complex hydrocarbon mixtures	186
18. Rectification of absorption naphtha	199
19. Topping stills for crude petroleum	202
20. Column performance	208
21. The condenser	227
22. Accessories	236
23. Continuous distillation	238
24. Appendix	253
25. Index	261
