

## CONTENTS

### **Part I Fundamental aspects**

- |   |    |
|---|----|
| 1. Drying of solids: principles, classification and selection of dryers | 3  |
| 2. Experimental techniques in drying                                    | 47 |
| 3. Basic process calculations in drying                                 | 83 |

### **Part II Description of various dryer types**

- |                                     |     |
|-------------------------------------|-----|
| 4. Rotary drying                    | 133 |
| 5. Horizontal vacuum rotary dryers  | 155 |
| 6. Fluidized bed drying             | 165 |
| 7. Drum dryers                      | 227 |
| 8. Industrial spray drying systems  | 243 |
| 9. Freeze drying                    | 295 |
| 10. Microwave and dielectric drying | 327 |
| 11. Solar drying                    | 357 |
| 12. Spouted bed drying              | 419 |
| 13. Impingement drying              | 461 |
| 14. Flash drying                    | 475 |
| 15. Conveyor dryers                 | 501 |

### **Part III Drying in various industrial sectors**

- |  |     |
|--|-----|
| 16. Drying of foodstuffs                               | 517 |
| 17. Drying of agricultural products                    | 555 |
| 18. Evaporation and spray drying in the dairy industry | 571 |
| 19. Drying of pharmaceutical products                  | 605 |
| 20. Drying of pulp and paper                           | 643 |
| 21. Drying of wood and wood products                   | 683 |
| 22. Drying in mineral processing                       | 711 |
| 23. Drying of coal                                     | 721 |
| 24. Drying of coated webs                              | 753 |
| 25. Drying of polymers                                 | 757 |

### **Part IV Miscellaneous topics in industrial drying**

- |   |     |
|---|-----|
| 26. Packed bed drying                           | 789 |
| 27. Energy aspects in drying                    | 823 |
| 28. Fire and explosion hazards in drying plants | 863 |
| 29. Humidity measurements                       | 881 |
| 30. Index                                       | 939 |
