

CONTENTS

PART I. INDUCTION

- | | | |
|---|--|---|
| 1 | Introduction to Gas Separation by Polymers | 3 |
|---|--|---|

PART II. SEPARATION BY PHYSICAL METHOD

- | | | |
|---|--|-----|
| 2 | Theory of Membrane Permeation | 15 |
| 3 | Relationship between Aggregation State and Gas Permeation Properties | 51 |
| 4 | Design of Polymer Membranes for Gas Separation | 107 |

PART III. SEPARATION BY CHEMICAL METHODS

- | | | |
|---|--|-----|
| 5 | Porous Polymer Complexes for Gas Separation | 147 |
| 6 | Polymer Complex Membranes for Gas Separation | 183 |
| 7 | Polymer Complex for the Separation of Carbon Monoxide and Ethylene | 221 |

- | | | |
|--|-------|-----|
| | Index | 239 |
