

CONTENTS
VOLUME 1

1. Liquid – liquid equilibria	1
2. Interphase mass transfer	40
3. Marangoni phenomena	157
4. Mass transfer coefficients, interfacial effects, and surface renewal	210
5. Mixing and coalescence phenomena in liquid- liquid systems	244
6. Plug flow analysis	345
7. Axial dispersion	416
8. Selection, design, pilot – testing and scale – up of extraction equipment	492
9. Nomenclature	580
10. References	583
11. Index	591
