

CONTENTS

Chapter	1. Introduction	1
Part I. Diffusion and mass transfer		
Chapter	2. Molecular diffusion in fluids	15
	3. Diffusion in turbulent flow	35
	4. Diffusion in solids	62
	5. Interphase mass transfer	78
Part II. Gas – liquid operations		
Chapter	6. Equipment for gas- liquid operations	109
	7. Humidification operations	149
	8. Gas absorption	201
	9. Distillation	257
Part III. Liquid – liquid operations		
Chapter	10. Liquid extraction	361
Part IV. Solid – fluid operations		
Chapter	11. Adsorption and ion exchange	447
	12. Drying	524
	13. Leaching	584
Part V. Contact of miscible phases		
Chapter	14. The less conventional operations	635
	15. Index	651
