

CONTENTS

OVERVIEW

1. Catalysis: A key to advances in applied polymer science	2
2. Most advanced magnesium chloride supported ziegler – natta catalyst	27
3. Polymerization of C ₂ – C ₆ α-olefins in the presence of modified ziegler – natta catalysts based on titanium halides and organoaluminum sulfates	56
4. Isotactic olefin polymerization with optically active catalysts	63
5. 1-Butene polymerization with ethylenebis-(1-indenyl) zirconium dichloride and methylaluminoxane catalyst system: effect of hydrogen addition	72
6. Rate of ethylene polymerization with catalyst system (n ⁵ -RC ₅ H ₄) ₂ – methylaluminoxane: effects of cyclopentadienyl ring substituents	78
7. Migratory nickel (0) – phosphorane catalyst: α-olefin polymerization by 2, w-linkage	88
8. Structure and morphology of highly stereoregular syndiotactic polypropylene produced by homogeneous catalysts	104
9. Dicyclopentadiene polymerization using well-characterized tungsten phenoxide complexes	121
RING- OPENING COORDINATION POLYMERIZATION OF EPOXIDES	
10. Structural effects and reactivity of polymer – bound functional groups: kinetics of nucleophilic displacement reactions on chlorinated polyethers	136
11. Mechanism of oxirane coordination polymerization of soluble polynuclear u-oxometal alkoxide aggregates	149
12. ¹³ C NMR analysis of polyether elastomers	157
13. Calorimetric study of cure behavior of an amine – epoxy resin under ambient conditions	170
14. X- ray fiber diffraction study of a synthetic analog of cellulose: poly [3,3 – bis (hydroxymethyl) oxetane]	182
15. Metalloporphyrin catalysts for control of polymerization	194
16. Oligomerization of oxiranes with aluminum complexes as initiators	205
17. Catalysts and initiators for controlling the structure of polymers with inorganic backbones	215
18. Mechanisms and catalysis in cyclophosphazene polymerization	236
19. Polyaddition of epoxides and diepoxides to the acids of phosphorus: synthesis of poly (alkylene phosphate)	248
20. Poly (methyl methacrylate) - block – polyisobutylene – block poly (methyl methacrylate) thermoplastic elastomers: synthesis, characterization ,and some mechanical properties	258
21. Author index	280
22. Affiliation index	280
23. Subject index	281
