

CONTENTS

PART I. THE MICROBIOLOGICAL KETOGENIC PROCESSES

- 1 Ketogenic Fermentation Processes 1

PART II. FERMENTATIVE PRODUCTION OF 2,3-BUTANEDIOL

2. Fermentative Production of 2,3-Butandiol 27

PART III. THE PRODUCTION OF ENZYMES

3. Fungal Amylolytic Enzymes 97
4. Microbial Enzymes Other than Fungal Amylases 122

PART IV. THE PRODUCTION OF VITAMINS

5. Production of Riboflavin by Fermentation 157
6. Production of Vitamins Other than Riboflavin 191

PART V. THE PRODUCTION OF PHARMACEUTICALS

7. The Penicillin Fermentation 219
8. Streptomycin 264
9. The Broad-Spectrum, Polypeptide, and Other antibiotics 294

PART VI MISCELLANEOUS

10. Miscellaneous Fermentations 387
11. Lactic Acid Fermentation of Cucumbers, Sauerkraut and Olives 417
12. Selection and Maintenance of Cultures 479
13. Cultural Variation and Genetics 491
14. Fermentations in Waste Treatments 518
