

CONTNETS

I.	INTRODUCTION	1
PART I. THE YEASTS: A STUDY OF THEIR ACITIVITIES AND INDISTRIAL APPLICATIONS		
II.	THE YEASTS	11
III.	THE PRODUCTION OF INDUSTRIAL ALCOHOL BY FERMENTATION	40
IV.	FACTS AND THEORIES CONCERNING THE MECHANISM OF THE ETHYL ALCOHOL FERMENTATION	67
V.	BREWING	87
VI.	WINE	111
VII.	THE DISTILLING INDUSTRIES	134
VIII.	YEAST: ITS MANUFACTURE, VITAMINS, AND USES	150
IX.	THE GLYCEROL FERMENTATION	161
X.	FAT PRODUCTION BY YEASTS AND YEAST-LIKE MICROORGANISMS	169
PART II : THE BACTERIA: A STUDY OF THEIR ACTIVITIES AND INDUSTRIAL APPLICATION		
XI.	THE BACTERIA	177
XII.	THE ACETONE-BUTANOL FERMENTATION	180
XIII.	THE ACETONE-ETHANOL FERMENTATION	216
XIV.	THE BUTYL ALCOHOL-ISOPROPYL ALCOHOL FERMENTATION	223
XV.	THE ACETIC ACID BACTERIA AND SOME OF THEIR BIOCHEMICAL ACTIVITIES233	
XVI.	THE PRODUCTION OF LACTIC ACID BY FERMENTATION	260
XVII.	SAUERKRAUT	281
XVIII.	PICKLES	291
XIX.	SILAGE	301
XX.	SOME LACTIC ACID BACTERIA AND SOME FERMENTATED MILK PRODUCTS	303
XXI.	CHEESE	309
XXII.	THE PROPIONIC ACID FERMENTATION	318
XXIII.	SOME MINOR FERMENTATIONS WITH INDUSTRIAL IMPLICATIONS	327

PART III. THE MOLDS: A STUDY OF THEIR ACTIVITIES AND INDUSTRIAL APPLICATIONS

XXIV. THE MOLDS	339
XXV. THE CITRIC ACID FERMENTATION	358
XXVI. THE GLUCONIC ACID FERMENTATION	378
XXVII. THE PRODUCTION OF LACTIC ACID BY MOLDS	394
XXVIII. THE GALLIC ACID FERMENTATION	402
XXIX. THE KOJIC ACID FERMENTATION	404
XXX. THE FUMARIC ACID FERMENTATION	413
XXXI. MANNITOL PRODUCTION BY MOLDS	416
XXXII. MOLD ENZYME PREPARATIONS: USES AND PRODUCTS	419
XXXIII. THE PRODUCTION OF FAT BY MOLDS	425
XXXIV. SOME MINOR CHEMICAL ACTIVITIES OF THE LOWER FUNGI	434

PART IV. SPECIALIZED ACTIVITIES OF THE MOLDS, YEASTS AND BACTERIA

XXXV. TEXTILE MICROBIOLOGY	453
XXXVI. THE MICROBIOLOGY OF WOOD	475
APPENDIX A. DETERGENCY, DISINFECTION, AND STERILIZATION	491
APPENDIX B. THE TREATMENT AND DISPOSAL OF INDUSTRIAL MICROBIOLOGICAL WASTES	501
INDEX	507
