

CONTENTS

1. Introduction	1
2. Normal freezing and the distribution coefficient	7
3. theory of zone refining	23
4. Techniques of zone refining	57
5. Applications of zone refining	99
6. Continuous zone refining	155
7. Zone leveling and single crystal growth	153
8. Methods of perturbing the concentration	171
9. Temperature – gradient zone melting	198
10. Index	231
