

**CONTENTS**

|                                      |     |
|--------------------------------------|-----|
| 1. Introduction                      | 1   |
| 2. Fluid mechanics                   | 35  |
| 3. Transportation of fluids          | 136 |
| 4. Size reduction                    | 201 |
| 5. Handling of solids                | 242 |
| 6. Mixing                            | 280 |
| 7. Mechanical separations            | 313 |
| 8. Flow of heat                      | 417 |
| 9. Evaporation                       | 530 |
| 10. Mass transfer                    | 580 |
| 11. Gas absorption                   | 629 |
| 12. Distillation                     | 665 |
| 13. Leaching and extraction          | 756 |
| 14. Crystallization                  | 804 |
| 15. Air – water – contact operations | 838 |
| 16. Drying                           | 871 |
| 17. Index                            | 933 |
