

CONTENTS

1. Process Design	1
2. The Liquefaction of Methane	25
3. The Desulfurization of Petroleum Naphtha	49
4. Gas Transmission Line	84
5. The Use of Thermocouples For	102
6. Water Desalination by Hydrate Formation	126
7. Fresh Water From Sea Water	138
8. Sol vent Recovery	177
9. Pigment Washing	206
10. The Production of Hydrogen by Steam Reforming of Methane And Butane	227
Index	253
