

CONTENTS

|   |     |
|---|-----|
| 1. Introduction                                 | 1   |
| 2. Development of the Project                   | 15  |
| 3. Process Design                               | 40  |
| 4. Selection of Process Equipment and Materials | 84  |
| 5. Plant Layout                                 | 177 |
| 6. Economic Evaluation of the Project           | 189 |
| 7. Locating the Chemical Plant                  | 265 |
| 8. Site Preparation and Structures              | 291 |
| 9. Process Auxiliaries                          | 340 |
| 10. Nuclear Chemical Plant Design               | 427 |
| Name Index                                      | 519 |
| Subject Index                                   | 525 |
