

**CONTENTS**

|  |     |
|--|-----|
| A. Perspective                               | 1   |
| B. Numerical and Mathematical Data           | 9   |
| C. Conversion Tables                         | 20  |
| D. Physical and Mechanical Properties        | 33  |
| E. Thermodynamic Data                        | 94  |
| F. Piping, Hydraulics, and Flow Measurements | 165 |
| G. Heat Transfer                             | 226 |
| H. Combustion                                | 273 |
| I. Power                                     | 318 |
| J. Pumps                                     | 337 |
| K. Fans, Blowers, and Compressors            | 335 |
| L. Absorption, Stripping, Distillation       | 376 |
| M. Water                                     | 415 |
| Index  | 431 |
