

## CONTENTS

CHAPTER 1. MATERIALS OF CONSTRUCTION AND CORROSION	1
Corrosion and its Prevention. Selection of Materials. Ferrous Metals. Non-ferrous Metals. Alloys. Non-Metals. Ceramics.	
CHAPTER 2. MATERIALS HANDLING	18
Storage and Conveyance of Solid, Liquids, and Gases. Sampling and Testing.	
CHAPTER 3. CHEMICAL PLANT	35
Flow Diagrams. Reactors. Agitators and Baffles. Tanks. Towers. Calciners and Kilns. Crystallizers. Heat Exchangers. Driers. Evaporators. Filters. Mixers. Mills and Crushers. Pumps. Valves. Fans. and Ducting	
CHAPTER 4. UNIT OPERATIONS	61
Absorption and Scrubbing. Calcination. Crystallization. Distillation. Drying. Evaporation. Filtration. Precipitation. Size Reduction and Size Separation. Solvent Extraction.	
CHAPTER 5. MEASUREMENTS	80
Units. Measurement of Temperature, Pressure and Vacuum, Volume, Weight, Density, pH, Flow. Controllers. Electrical Measurements.	
CHAPTER 6. CARE AND MAINTENANCE OF CHEMICAL PLANT	98
General Principles. Housekeeping. Methods of Maintenance. Linings. Pumps. Piping. Valves. Fans and Ducting. Machinery. Instruments. Lifting Equipment.	
CHAPTER 7. SERVICES	124
General Principles. Steam. Compressed Air. Vacuum. Water. Refrigeration. Electricity. Gases. Effluent Disposal. Rubbish Disposal. Ventilation.	
CHAPTER 8. SAFETY IN CHEMICAL PLANT OPERATION	138
Why do Accidents Occur? Basic Safety Rules. Detection of Possible Hazards. Housekeeping. Personal Protective Clothing and Equipment. Pressure and Vacuum Systems. Safety Guidance for Chemical Operators	
PRELIMINARY RULES FOR FIRST AID	154
CONVERSION TABLES	157
TEST QUESTIONS	165
INDEX	167
