

CONTENTS

1. Introduction to Dispersion Polymer Technology	1
2. The Theoretical Basis for the Steric Stabilization of Polymer Dispersion Prepared in Organic Media	9
3. The Design and Synthesis of Dispersants for Dispersion Polymerization in Organic Media	45
4. Kinetics and Mechanism of Dispersion Polymerization	115
5. The Preparation of Polymer Dispersions in Organic Liquids	201
6. The Properties of Polymer Dispersion Prepared in Organic Liquids	243
7. Applications of Polymer Dispersions Prepared in Organic Media	273
Appendix: Patents on Polymers Dispersed in Organic Media	291
Author and Patentee Index	309
Subject Index	315
