

CONTENTS

1. Using Catalysts	1
2. Burning Coke off Catalysts	11
3. Isomerization	15
4. Catalytic Cracking of Petroleum	26
5. Dehydration	36
6. Dehydrogenation	41
7. Catalytic Reforming of Naphthas	54
8. Polymerization	64
9. Alkylation	87
10. Catalysts for Free Radical Polymerizations	97
11. Synthesis Gas and Hydrogen Production	101
12. Gas Purification	108
13. Hydrogenation	125
14. Synthesis of Ammonia and Methanol	146
15. Hydrogenation of Carbonyl Groups	152
16. Hydrorefining	158
17. Hydrocracking of Petroleum and Coal	173
18. Oxidation (Inorganic)	182
19. Oxidation (Organic) Liquid Phase	189
20. Oxidation (Organic) Vapor Phase	203
21. Miscellaneous Processes	217
22. Catalyst Carriers and Supports	241
Author Index	255
Subject Index	265
