

CONTENTS

1. Units and dimensions	1
2. Flow of fluids – energy and momentum relationships	16
3. Friction in pipes and channels	41
4. Flow measurement	100
5. Pumps for chemical works	135
6. Heat transfer	183
7. Mass transfer	293
8. Momentum, heat and mass transfer	324
9. The boundary layer and pipe flow	345
10. Humidification and water cooling	393
11. Index	483
