

CONTENTS

Introduction	1
1. The Business Side of the Chemical Industry	7
2. A Taste of Chemical Engineering	25
3. Measurement and Control in Chemical Plants	43
4. Pollution and Related Chemistry	55
5. Energy	81
6. Water	109
7. Gases from the Air	117
8. Some Gases not Commercially Produced from Air	131
9. Natural Gas, Petroleum, and Some Petrochemicals	147
10. Coal, Coke, and Other Forms of Carbon	169
11. Iron and Steel	179
12. Aluminum, Magnesium, and Titanium	191
13. Lime, Portland Cement, Glass, and Gypsum	203
14. Chemicals Related to Salt	211
15. Sulfur and Sulfuric Acid	227
16. Compounds of Nitrogen	231
17. Phosphorus and its Compounds	241
18. Plastics, Fibers, and Paints	247
19. Elastomers	269
20. Wood Pulp and Paper	277
Bibliography	287
Index	289
