

**CONTENTS**

1	Introduction to Enzyme Technology	1
2	Basics of Enzymes as Biocatalysts	27
3	Enzymes in Organic Chemistry	109
4	Enzyme Production and Purification	171
5	Application of Enzymes in Solution: Soluble Enzymes and Enzyme Systems	197
6	Immobilization of Enzymes (Including Applications)	243
7	Immobilization of Microorganisms and Cells	283
8	Characterization of Immobilized Biocatalysts	333
9	Reactors and Process Technology	369
	Appendix I	419
	Appendix II	427
	Subject Index	431
