

CONTENTS

1. Economic Aspects of the Chemical Industry	1
2. Industrial Water Supply	10
3. Coal Technology	23
4. Sulfuric Acid and Sulfur	62
5. Synthetic Nitrogen Products	75
6. Miscellaneous Heavy Chemicals	123
7. Industrial Fermentation Process	156
8. Coal Carbonization and Recovery of Coal Chemicals ,	193
9. Rubber	207
10. Synthetic Plastics,	238
11. Man - Made Textile Fibers	301
12. Animal and Vegetable Oils	344
13. Soap and Synthetic Detergents	358
14. Petroleum and its Products: Petrochemicals	402
15. Industrial Chemistry of Wood	435
16. Sugar and Starch	488
17. Industrial Gases	514
18. Phosphates, Phosphorus, Fertilizers, Potassium Sales, Natural Organic Fertilizers, Urea	537
19. Chemical Explosives	570
20. The Pharmaceutical Industry	597
21. The Pesticide Industry	619
22. Pigments Paints Varnishes Lacquers and Printing Inks	653
23. Dye Application Manufacturing of Dye Intermediates and Dyes	667
24. The Nuclear Industry	719
25. Synthetic Organic Chemicals	772
26. Industrial Wastewater Technology	823
27. Air Pollution Control	874
28. Index	893
