

CONTENTS

Clean Technology for Speciality Chemicals	1
Clean Technologies to Meet Economic, Environmental and Safety Needs	6
The Clean Technology Route to Waste Minimisation	13
How Green Is My Process? A Practical Guide to Green Metrics	24
Process Intensification : Potential Impact on the Chemical Industry	32
Process Intensification : Choosing the Right Tools	37
Sulphones by Oxidation – the Development Perspective	47
New Catalysts for Old Reactions	54
Catalysis for Fine Chemicals : An Industrial Perspective	68
A Case Study on Recovery and Reuse of Complex Solvent Mixtures from Chemical Production	78
Subject Index	92
