

CONTENTS

I BACKGROUND TO PETROLEUM CHEMICALS

1 Introduction	3
2 Petroleum Chemicals: Their Place in the Chemical Industry	6
3 Characteristics of Petroleum Chemical Manufacture	12
4 Raw Materials	26

II PETROLEUM CHEMICAL PRODUCTS AND THEIR APPLICATIONS

A. Classification of Petroleum Chemicals According to Source

5 Acetylene Derivatives	51
6 Methane Derivatives	61
7 Derivatives of Higher Paraffins	72
8 Ethylene Derivatives	86
9 Propylene Derivatives	150
10 Derivatives of C ₄ Hydrocarbons	192
11 Derivatives of Higher Olefins	219

B. Products from Miscellaneous Petroleum Sources

12 Derivatives of Synthesis Gas	223
13 Petroleum Aromatics	251
14 Cyclic Compounds	283
15 Carbon Black	297
16 Sulphur and Sulphuric Acid	301

III THE INDUSTRIAL PATTERN

17 Relationship with the Petroleum Industry	309
18 Industrial Influence of Petroleum Chemicals	314
19 Statistics of Petroleum Chemical Production	345

Glossary-Chemical Nomenclature	354
Bibliographical Note	357
Major reactions in chart form-Acetylene, Ethylene, Propylene	361
Index	369
