

CONTENTS

Chapter 1 : Introduction

1.1 What are petrochemicals?	13
1.2 The development of the Petrochemical industry	14
1.3 The raw materials-petroleum and natural gas	15
1.4 Petroleum refining	17
1.5 Petrochemical feedstocks from petroleum refining	20
1.6 The basic building block processes	20
1.7 Petrochemical process technology	21
1.8 Costs in chemical processing	26
1.9 Nomenclature	29

Chapter 2 : Ethylene and Co-products by Thermal Cracking

2.1 Feedstocks	30
2.2 The reaction system	31
2.3 The primary cracking reactions	34
2.4 Secondary reactions	39
2.5 Products and product separation	41

Chapter 3 : Ethylene Derivatives

3.1 Polyethylene	44
3.2 Vinyl chloride	47
3.3 Ethylene oxide and derivatives	49
3.4 Styrene	53
3.5 Ethanol	53
3.6 Acetaldehyde	55
3.7 Vinyl acetate	59
3.8 Chlorinated solvents	60
3.9 Ethyl chloride	60
3.10 Linear 1-alkenes and linear primary alcohols	61

Chapter 4 : Propylene Derivatives

4.1 Polypropylene	65
4.2 Isopropyl alcohol and acetone	66
4.3 Propylene oxide	68
4.4 Cumene	72
4.5 Hydroformylation: butyl alcohol and other products	72

4.6 Propylene trimer and tetramer	74
4.7 Acrylic acid and acrylates	75
4.8 Acrylonitrile	76
4.9 Allyl chloride	77
 Chapter 5 : Butadiene and Butenes	
5.1 Introduction	80
5.2 Butadiene-manufacture	81
5.3 Butadiene-uses	82
5.4 Isobutane	85
5.5 <i>n</i> -Butenes	87
 Chapter 6 : Benzene, Toluene and Xylenes Production	
6.1 Introduction	89
6.2 Catalytic reforming	90
6.3 Aromatics from pyrolysis gasoline	95
6.4 C ₈ aromatics	96
6.5 Hydrodealkylation and disproportionation	99
 Chapter 7 : Benzene Derivatives	
7.1 Ethylbenzene and styrene	101
7.2 Cyclohexane and nylon intermediates	105
7.3 Phenol	113
7.4 Nitrobenzene and aniline	120
7.5 Maleic anhydride	122
7.6 Detergent alkylate and alkylbenzenesulphonate detergents	123
 Chapter 8 : Toluene and Xylene Derivatives	
8.1 Toluene di-isocyanate	126
8.2 Benzoic acid	129
8.3 Phthalic anhydride	132
8.5 Terephthalic acid and dimethyl terephthalate	134
 Chapter 9 : Steam Reforming and Related Processes	
9.1 The reforming reactions	141
9.2 Steam reforming for ammonia	143
9.3 Ammonia synthesis	146
9.4 Uses of ammonia	147
9.5 Methanol-manufacture	148
9.6 Methanol-uses and derivatives	150

9.7 Steam reforming for other purposes	155
9.8 Synthesis gas by other methods	156
Chapter 10 : Miscellaneous Processes and Products	
10.1 Chloromethanes	159
10.2 Carbon disulphide	162
10.3 Acetic acid by butane and naphtha oxidation	163
10.4 Dehydrogenation and chlorination of linear alkanes	164
10.5 Wax cracking	165
10.6 Cracking for acetylene	166
Sources of Further Information and Further Reading	169
Answers to Problems	172
Index	177
