

CONTENTS

1. Various Aspects of the Energy and Raw Material Supply	1
2. Basic Products of Industrial Syntheses	15
3. Olefins	55
4. Acetylene	81
5. 1,3-Diolefins	93
6. Syntheses involving Carbon Monoxide	111
7. Oxidation Products of Ethylene	127
8. Alcohols	171
9. Vinyl-Halogen and Vinyl-Oxygen Compounds	191
10. Components for Polyamides	209
11. Secondary Products of Propene	235
12. Aromatics-Production und Conversion	273
13. Benzene Derivatives	293
14. Oxidation Products of Xylene and Naphthalene	335
15. Appendix	353
Index	383
