

CONTENTS

1. Historical introduction	1
2. Primary transformations and separations	15
3. Chemicals produced from synthesis gas	56
4. Chemicals derived from acetylene	67
5. Chemicals derived from ethylene and ethane	77
6. Chemicals derived from propylene and propane	136
7. Chemicals derived from C ₄ hydrocarbons	161
8. Chemicals derived from C ₅ and higher hydrocarbons	173
9. Chemicals derived from aromatic hydrocarbons	198
10. Miscellaneous heavy organic chemicals	227
CONCLUSION	239
