

CONTENTS

Preface	xi
Contributing Authors	xiii
1. Coal Liquefaction and the Electric Utility Industry	3
2. Coal dilemma II, COGAS	5
3. Hydrocarbonization	23
4. Production of Distillate Fuels by SRC-II	55
5. Exxon Donor Solvent, Coal Liquefaction Process Development	71
6. The H-Coal Project	91
7. The Role of DOE's Energy Technology centers	103
8. Roundtable Discussions	111
9. The Future of Coal as a Source of synthetic fuels	135
10. Major Technical Issues Facing synthetic Pipeline Gas	171
11. Major Technical Issues Facing Low and medium Btu Gasification	183
12. Energy commercialization Prospects	197
13. Barriers to commercialization	207
14. Energy and Society	219
15. Roundtable Discussions	233
Index	251
