662.669 CHE

Contents

Preface		iii
Chapter 1	Properties	1
	General Description	1
	Benzene Reactions	1
	Benzene Physical Properties and Data Base	4
Chapter 2	Methods of Manufacture	9
	Petroleum–Derived Benzene	9
	Coal–Derived Benzene	11
	Production Capacity	12
	Production 'Plants	12
Chapter 3	Uses	20
	Rubber–Tire Manufacturing	27
	Rubber Products	27
	Adhesives, Gravure Printing Inks, Printing and Publishing, Paints, and Miscellaneous Chemicals Industry	30
	Paint Removers	30
	Gasoline	30
	Laboratories	32
	Production of Major Benzene Derivatives	32
Chapter 4	Safe Use, Handling, and Storage	46
	Fire Safety and Storage	46
	Spills	47
	Waste Disposal	48
	Protective Clothing and Equipment	48
	Respirators	48
	Good Handling Practices	49

Emergency and First Aid 49
Employee Training and Information Training 51
Hazardous Materials and Shipping Document Requirements 62
Typical Hazardous Materials Shipment Violations 66

Chapter 5 Monitoring 70

Monitoring Requirements 70
Medical Monitoring 71
Biological Monitoring 71
Biological Monitoring in Practice 77
Air Sampling and Analysis Methods 82

Chapter 6 Health Effects 94

Entrance to the Body 94
Acute Exposure Effects 94
Chronic Exposure Effects 95
Benzene Toxicity Data 98
Benzene Substitutes' Toxicity 112

Chapter 7 Benzene in the Environment 117

Benzene Fate 117
Sources Emitting Benzene into the Environment 117
Benzene Exposures 119

Chapter 8 Controlling Benzene Emissions
by Yen-Hsiung Kiang 129

Characteristics of Benzene Emissions 129
Carbon Adsorption 130
Wash Oil Absorption 139
Thermal Oxidation 143
Catalytic Oxidation 151
Combination Systems 154

References 155

Appendix A: Exposure to Benzene; Liquid Mixtures: Occupational Safety and Health Standards 161

Appendix B: Occupational Exposure to Benzene: Occupational Safety and Health Standards 173

Appendix C: Benzene: Regulation as an Intentional Ingredient or as a Contaminant; Products Requiring Special Labeling; and Substances Requiring Special Packaging 227
