

Contents

	Preface	vii
	About the Author	ix
Chapter 1	Introduction	1
Chapter 2	Biomass Characteristics	27
Chapter 3	Pyrolysis and Torrefaction	65
Chapter 4	Tar Production and Destruction	97
Chapter 5	Gasification Theory and Modeling of Gasifiers	117
Chapter 6	Design of Biomass Gasifiers	167
Chapter 7	Hydrothermal Gasification of Biomass	229
Chapter 8	Biomass Handling	269
Chapter 9	Production of Synthetic Fuels and Chemicals from Biomass	301
Appendix A	Definition of Biomass	325
Appendix B	Physical Constants	327
Appendix C	Selected Design Data Tables	329
Glossary		337
	References	339
	Index	353
