

CONTENTS

CHAPTER

1. Thermophilic Anaerobic Digestion of Agricultural and Urban Wastes from Liquid to Semi-Solid state	1
2. Fixed Bed Anaerobic Reactors for the Biological Treatment of Liquid Wastes	49
3. The Production of chemicals and fuels from municipal solid wastes	61
4. Effluents of the food Industry in Mexico	75
5. Anaerobic Degradation of municipal solid Waste – Laboratory scale Tests	121
6. RBC for Carbonaceous removal and nitrification of municipal wastewater	153
7. Utilization of Straw and Molasses as feed	171
Index	183
