

CONTENTS

CHAPTER

1. Packed Bed Reactors for wastewater treatment	1
2. High-Rate anaerobic Treatment of Industrial Wastewaters	41
3. Nitrogen Removal in swine wastes by aerobic-Anoxic steps	81
4. Organic waste stabilization throughout composting and Its Compatibility with Agricultural uses	109
5. The anerobic digestion of Pig waste in four different reactor designs	139
6. Depollution of pig waste combined with energy recovery	163
Index	203
