

CONTENTS

CHAPTER

1. Mixing in biological treatment systems	1
2. Full scale anaerobic digestion of an animal fat and protein containing substrate in sludge Blanket reactor and fixed film reactor	139
3. Biogas Recovery techniques from a municipal solid Wastes landfill Undergoing a Thermophilic anaerobic Fermentation	147
4. present state of Anaerobic digestion for the treatment of Animal wastes in the Catalonian ares	163
5. Biogas Production from Rice Stato Procesing Wastewaters	177
6. Anaerobic Treatment of Potato Processing Wastewaters	189
7. Application of solid State Fermentation to Utilize solid Wastes	199
8. Methane from sanitary landifills	211
index	225
