

CONTENTS

Preface	xiii
Acknowledgements	xvii
1. What Is Municipal Solid Waste	1
2. Transport,Storage and Handling	43
3. Size Reduction	87
4. Metals Recovery and Wet Processes	141
5. Ari classification	171
6. Size separation	225
7. Selecting Unit Operatons and Optimizing the Process	275
Appendis A Conversion Factors	299
B ASTM Standards for Resource recovery	301
C Element Concentrations in RDF and RDF Ash	303
D Mathematics	305
E Calculation of Displacement of Particles in a Fotary drum classifier	315
F analysis of Behavior in a Rotary Chlinder	317
G Sampling and Analysis of Refuse and Refuse Products	323
Index	335
