VOLUME 1

1 INTRODUCTION, BACKGROUND AND HISTORY	1
<i>John A. Hudson and Alan J. Buglass</i>	
1.1 Alcoholic Beverages of the World: An Introduction to the Contents of This Book	3
1.2 History and Development of Alcoholic Beverages	12
1.2.1 The Beginnings (From the earliest Times to <i>ca.</i> 1100 AD)	12
1.2.2 Medieval Times and Beyond (<i>ca.</i> 1100–1750)	18
1.2.3 The Industrial Revolution and the Influences of Science and Technology (<i>ca.</i> 1750–1900)	24
1.2.4 Modern Times and Newer Processes (<i>ca.</i> 1900–Present Day)	28
1.2.5 The Development of Analytical Methods	35
References	40
1.3 Some Recent Trends and Developments	42
1.3.1 Overview	42
1.3.2 Big is Beautiful: Multinational Companies and the Globalization of Alcoholic Beverages	42
1.3.3 Small is Beautiful: The Growth in Microbreweries and Craft Breweries and the Localization of Products	44
1.3.4 Revival of Traditional Beer Styles	45
1.3.5 Changes in Beer Drinking Habits	47
1.3.6 Global Growth in Wine Drinking	48
1.3.7 Development of New Wine Industries	50
1.3.8 Revival of Cider and Perry: the Magic of Ice	52
1.3.9 The Rise of Flavored Alcoholic Beverages ('Alcopops')	52
1.3.10 Calorie-Counting and Health Perception of Alcoholic Drinks	53
1.3.11 Binge Drinking	54
1.3.12 Organic and Biodynamic Production of Alcoholic Beverages	56
1.3.13 Use of Genetically Modified (GM) Crops and Microorganisms	57
References	59

2	FERMENTED BEVERAGES: BEERS, CIDERS, WINES AND RELATED DRINKS	63
	<i>Marianne McKay, Alan J. Buglass and Chang Gook Lee</i>	
2.1	Introduction: Overview of Fermentation and Microorganisms	65
2.1.1	Yeasts	67
2.1.2	Lactic Acid Bacteria	69
2.1.3	Molds and Spoilage Organisms	69
	References	70
2.2	Alcoholic Fermentation	72
2.2.1	Introduction	72
2.2.2	Physiology and Morphology of Yeast	72
2.2.3	Nutritional Requirements of Yeast	73
2.2.4	The Use of Naturally Occurring ('Wild') Yeasts in Fermentations	75
2.2.5	The Killer Factor	76
2.2.6	The Use of Selected (Cultured) Yeast Strains	76
2.2.7	Fermentation Vessels	77
2.2.8	The Growth of a Yeast Population	77
2.2.9	An Overview of Alcoholic Fermentation	80
2.2.10	Flocculation	87
2.2.11	Aroma Compounds and Fermentation	88
	References	93
2.3	Malolactic Fermentation	96
2.3.1	Introduction	96
2.3.2	Malolactic Bacteria: Morphology and Physiology	97
2.3.3	Identification of Malolactic Bacteria	98
2.3.4	Factors Affecting the Growth of Malolactic Bacteria	98
2.3.5	Interactions Between Bacteria and Other Organisms	100
2.3.6	Spontaneous Malolactic Fermentation	101
2.3.7	Inoculation with MLB Starter Culture	101
2.3.8	The Growth of Bacterial Populations	102
2.3.9	The Malolactic Fermentation Process	103
2.3.10	Production of Diacetyl	104
2.3.11	Microbial Stability	104
2.3.12	Monitoring Malolactic Fermentation	105
2.3.13	Finishing and/or Preventing Malolactic Fermentation	105
2.3.14	Production of Biogenic Amines by Malolactic Bacteria	106
2.3.15	Other Effects of MLF	106
2.3.16	Malolactic Fermentation and Aroma	107
2.3.17	Lactic Spoilage	111
	References	112
2.4	Acetic and Other Fermentations	114
2.4.1	Introduction	114
2.4.2	Acetic Acid Bacteria	115
2.4.3	Lactic Acid Bacteria	117

2.4.4	The Activities of Yeasts other than <i>Saccharomyces</i>	117
2.4.5	Film Forming Yeasts	119
2.4.6	Molds	120
2.4.7	Prevention of Spoilage	120
	References	121
2.5	Preservatives Used in the Production of Alcoholic Beverages	123
2.5.1	Introduction	123
2.5.2	Sulfur Dioxide (SO ₂)	123
2.5.3	The Roles of SO ₂	125
2.5.4	Sorbic Acid	128
2.5.5	DMDC (Velcorin)	129
2.5.6	Ascorbic Acid (Vitamin C)	129
2.5.7	Pimaricin (Natamycin)	130
2.5.8	Other Preservatives	130
	References	131
2.6	Beer	132
2.6.1	The Basic Brewing Processes	132
2.6.2	Malting and Mashing	134
2.6.3	Boiling the Wort	148
2.6.4	Fermentation	157
2.6.5	Top Fermentation	163
2.6.6	Bottom Fermentation	167
2.6.7	Other Fermentations	169
2.6.8	Modern Methods of Fermentation	171
2.6.9	Beer Treatment: Fining, Filtration and Pasteurization	173
2.6.10	Packaging of Beer: Casking, Kegging, Bottling and Canning	182
2.6.11	Dispensing of Draught Beers	186
2.6.12	Oxidation and the Staling of Beer	192
2.6.13	Beer styles	196
	References	207
2.7	Cereal-based and Other Fermented Drinks of Asia, Africa and Central/South America	211
2.7.1	The Rice 'Wines' of Asia	212
2.7.2	Native Fermented Drinks of Africa and South America	222
	References	229
2.8	Cider and Perry	231
2.8.1	Introduction	231
2.8.2	The Basic Ingredients	233
2.8.3	Harvesting, Crushing and Pressing	238
2.8.4	Fermentation and Maturation	241
2.8.5	Traditional and Small-Scale Cider and Perry Production: Fermentation and Beyond	245
2.8.6	Large-Scale (Factory) Production of Cider and Perry: Fermentation and Beyond	251
2.8.7	Newer Techniques, Recent Developments and Innovations	254
2.8.8	Cider and Perry from Around the World	257
	References	263

2.9	Wine	266
2.9.1	White Winemaking	267
2.9.2	Red Wine Production	300
2.9.3	Sparkling Wines	324
2.9.4	Fining, Filtration and Clarification	343
2.9.5	Wine Maturation and Ageing	354
2.9.6	Some Current Trends in Wine Production	371
	References	377
2.10	Fortified Wines and Liqueur Wines	383
2.10.1	Overview and Scope	383
2.10.2	Sherry and Other Flor Wines	384
2.10.3	Flor and Oxidation in Sherry Wines	391
2.10.4	Other Flor Wines	394
2.10.5	Madeira	395
2.10.6	Estufagem and Cask Maturation of Madeira Wine	397
2.10.7	Port	399
2.10.8	Marsala and Málaga	408
2.10.9	Vins Doux Naturels, Liqueur Muscat and Similar Wines	409
2.10.10	Vins de Liqueurs and Similar Beverages	414
	References	416
2.11	Fruit Wines and Other Nongrape Wines	419
2.11.1	Overview and Scope	419
2.11.2	Comparison of Fruit for Winemaking	420
2.11.3	Making Fruit Wines	423
2.11.4	Country Wine Styles	429
2.11.5	Mead	432
	References	434
2.12	Aromatized Wines	436
2.12.1	Introduction and Brief History of Aromatization of Wine	436
2.12.2	Vermouth	437
2.12.3	Other Aromatized Wines and Apéritifs	444
	References	445
2.13	Low Alcohol and Non-Alcoholic Beers, Ciders and Wines	447
2.13.1	Overview	447
2.13.2	Production of Low Alcohol Beverages by Limited or Checked Alcohol Methods	448
2.13.3	Dealcoholization Methods	450
	References	453
3	DISTILLED SPIRITS	455
	<i>Alan J. Buglass, Marianne McKay and Chang Gook Lee</i>	
3.1	Introduction: Distillation Methods and Stills	457
3.1.1	A Brief History and Theory of Distillation	457
3.1.2	Batch Distillation	461
3.1.3	Continuous Column Distillation	466
	References	468

3.2	Scotch Whisky	469
3.2.1	Introduction and Brief History	469
3.2.2	The Raw Materials	475
3.2.3	Malting, Mashing, Cooking and Fermentation	479
3.2.4	Distillation	487
3.2.5	Maturation, Blending and Other Postdistillation Processes	491
3.2.6	The Flavor and Styles of Scotch Malt Whiskies	498
	References	512
3.3	Whiskeys	515
3.3.1	Scope	515
3.3.2	Irish Whiskey	516
3.3.3	The Whiskeys of America	519
3.3.4	Bourbon and Tennessee Whiskey	520
3.3.5	American Rye and Corn Whiskies	527
3.3.6	Whiskies from Other Countries	528
	References	533
3.4	Other Cereal Based Spirits	535
3.4.1	Introduction and Scope	535
3.4.2	Gin and Similar Juniper Flavored Spirits	535
3.4.3	Akvavit (Aquavit) and Vodka	541
3.4.4	Asian Grain Spirits	543
	References	553
3.5	Cane Spirits, Vegetable Based Spirits and Aniseed Flavored Spirits	555
3.5.1	Overview and Scope	555
3.5.2	History and Basic Description of Rum and Cachaça	556
3.5.3	Fermentation and Distillation Practices in the Production of Cachaça and Rum	560
3.5.4	Flavor Characteristics of Rum and Cachaça	564
3.5.5	Arrack, Mezcal and Tequila	566
3.5.6	Aniseed Flavored Spirits	570
	References	572
3.6	Brandy	574
3.6.1	Introduction and Brief History	574
3.6.2	Cognac	585
3.6.3	Armagnac	588
3.6.4	Other Brandies	589
3.6.5	Quality Control in Brandy Production	591
3.6.6	Evaluating Brandy	591
	References	593
3.7	Grape and Other Pomace Spirits	595
3.7.1	Introduction	595
3.7.2	Production of Pomace Spirits	596
3.7.3	Types of Pomace Spirits and Sensory Characteristics	598
	References	600

3.8	Fruit Spirits	602
3.8.1	Introduction	602
3.8.2	Apple and Pear Spirits	603
3.8.3	Fruit Spirits of Central Europe	608
3.8.4	Plum Spirits of Eastern Europe	611
3.8.5	Other Fruit Spirits	612
	References	613
3.9	Liqueurs and Their Flavorings	615
3.9.1	Introduction and Scope	615
3.9.2	Fruit and Fruit Flavored Liqueurs	617
3.9.3	Flower, Herb, Spice and Bitter Liqueurs	620
3.9.4	Cocoa, Coffee and Tea Liqueurs	624
3.9.5	Nut and Emulsion Liqueurs	624
3.9.6	Production and Use of Essences and Concentrates	625
	References	626
VOLUME 2		
4	ANALYTICAL METHODS	629
	<i>Alan J. Buglass and Darren J. Caven-Quantrill</i>	
4.1	Introduction	631
4.1.1	Why Analyze Alcoholic Beverages? An Overview of the Need for Analysis	632
4.1.2	Process Monitoring	633
4.1.3	Identification of Origin, Determination of Authenticity and Detection of Fraud	636
4.1.4	Determination and Characterization of Beverage Components and Processes	639
4.1.5	Development of New Analytical Methods	642
	References	645
4.2	Extraction and Focusing Methods in Sample Preparation	647
4.2.1	Overview	647
4.2.2	Liquid Extraction Techniques	648
4.2.3	Distillation Methods	659
4.2.4	Solid Phase Extraction and Related Methods (Sorption Techniques)	664
4.2.5	Headspace Methods	684
4.2.6	Combinations of Methods (With Particular Application to Enological Products)	688
4.2.7	Summary	690
	References	690
4.3	Chromatographic Methods	705
4.3.1	Thin Layer Chromatography and Related Methods	706
4.3.2	Capillary Gas Chromatography	709
4.3.3	Liquid Chromatography	722
4.3.4	Counter Current Chromatographic Methods	752
	References	755

4.4	Spectroscopic Methods	765
4.4.1	Nuclear Magnetic Resonance	767
4.4.2	Infrared Spectroscopy	784
4.4.3	Colorimetry, UV-Visible Spectroscopy and Fluorometry	793
4.4.4	Atomic Absorption and Emission Spectroscopy	814
4.4.5	Mass Spectrometry	825
	References	843
4.5	Electrochemical Methods	855
4.5.1	Potentiometric Methods	856
4.5.2	Voltammetric Methods	863
4.5.3	Electrochemical Sensors	869
	References	873
4.6	Other Methods	877
4.6.1	Electrophoretic Techniques	877
4.6.2	Flow Injection Techniques	889
4.6.3	Chemical and Physical Methods	896
	References	907
4.7	Sensory Analysis	913
4.7.1	Introduction	913
4.7.2	Olfaction and Taste	914
4.7.3	Odor Threshold, Odor Activity and Low Impact Odorants	922
4.7.4	Sensory Tests	925
	References	930
5	NUTRITIONAL AND HEALTH ASPECTS	933
	<i>Nigel J. Fuller, Suk Hean Lee and Alan J. Buglass</i>	
5.1	General Introduction	935
5.1.1	'Alcohol' in Perspective	936
5.1.2	The Extent and General Implications of Alcoholic Beverage Consumption	938
5.1.3	Ingredients, Processing and the Nutrient Content of Alcoholic Beverages	941
5.1.4	Nutritional Considerations	943
5.1.5	Summary	946
	References	946
5.2	Factors Influencing the Nutrient Content of Alcoholic Beverages	949
5.2.1	Wines	951
5.2.2	Beers	952
5.2.3	Cider and Perry	955
5.2.4	Distilled Beverages	955
5.2.5	Fortified wines	957
5.2.6	Alcopops	958
5.2.7	Cocktails	958
	References	959

5.3	Macronutrient Content of Alcoholic Beverages	961
5.3.1	Water	963
5.3.2	Alcohol	966
5.3.3	Carbohydrates (Including Fiber)	967
5.3.4	Nitrogenous Compounds: Proteins, Peptides, Amino Acids, Amines and Nucleotides	970
5.3.5	Lipids	972
	References	973
5.4	Micronutrient Content of Alcoholic Beverages	975
5.4.1	Vitamins	977
5.4.2	Electrolytes and Functional Elements (Minerals and Trace Elements)	981
5.4.3	Phytochemicals	986
	References	990
5.5	Alcohol Ingestion, Absorption and Catabolism: Metabolic and Nutritional Consequences	993
5.5.1	Alcohol Catabolism	994
5.5.2	Methanol Catabolism	997
5.5.3	Effects of Alcohol on Intake of Foods and Energy	997
5.5.4	Consequences for Intermediary Metabolism of Alcohol Catabolism	998
5.5.5	Effects of Alcohol and its Metabolites on Absorption, Metabolism and Utilization of Key Nutrients	1000
	References	1001
5.6	Health Consequences of Alcohol Intake	1003
5.6.1	Overview: Alcoholic Beverages and Society	1003
5.6.2	Harmful Effects of Excessive Alcohol Intake	1008
5.6.3	Possible Benefits of Low to Moderate Consumption of Alcoholic Beverages	1020
5.6.4	Conclusion	1022
	References	1022
5.7	Carbohydrates in Alcoholic Beverages and Health	1030
5.7.1	Metabolizable Carbohydrate	1030
5.7.2	Low Carbohydrate Beers	1033
5.7.3	High Carbohydrate Beers	1034
5.7.4	Nonmetabolizable Carbohydrate	1035
	References	1037
5.8	Antioxidant Value of Alcoholic Beverages	1038
5.8.1	Overview	1038
5.8.2	Summary of Aerobic Cell Metabolic Processes	1039
5.8.3	Short Review of Oxygen in Cell Metabolic Processes	1039
5.8.4	Incomplete Reduction of Oxygen, the Formation of Reactive Oxygen Species and Cell Damage	1041
5.8.5	Natural Antioxidants in Food	1043
5.8.6	Phenolic Substances in Alcoholic Beverages	1044

5.8.7	Some Chemical Characteristics of Phenolic Compounds	1045
5.8.8	Health Benefits and Antioxidant Potency of Alcoholic Beverages, their Phenolic Extracts and their Individual Phenolic Components	1050
5.8.9	Mechanisms of <i>In Vivo</i> Health Benefits of Dietary Phenols: Antioxidants or Otherwise?	1054
	References	1061
5.9	Additives in Alcoholic Beverages	1065
5.9.1	Introduction	1065
5.9.2	Sulfur Dioxide and Other Preservatives	1065
5.9.3	Fining Agents and Adjuncts	1068
5.9.4	Other Additives	1069
5.9.5	Regulations and Legislation Relating to Additives	1071
	References	1073
5.10	Residues in Alcoholic Beverages	1076
5.10.1	Introduction	1076
5.10.2	Pesticides	1076
5.10.3	Metal and Nonmetal Residues	1082
5.10.4	Industrial Contaminants	1086
	References	1091
5.11	Other Trace Substances in Alcoholic Beverages	1093
5.11.1	Introduction	1093
5.11.2	Phytochemicals	1093
5.11.3	Nitrogenous Allergenic Substances	1098
5.11.4	Mycotoxins	1101
5.11.5	Other Trace Substances	1104
	References	1107
Appendix 1	Units of Measurement and Interconversions	1111
Appendix 2		1113
Appendix 3	Pressure and Temperature Unit Conversions, and Numerical Values of Constants	1115
	Glossary	1117
