

CONTENTS

1. Authentication of orange juice	1
1.1 Introduction	1
1.2 Analysis	7
1.3 Statistics	28
1.4 Recent developments in orange juice adulteration	34
2. Chemistry and technology of citrus juices and by-products	53
2.1 Principal citrus cultivars	53
2.2 Composition and structure of citrus fruits and juices of various cultivars	57
2.3 Operational procedures and effects on quality and shelf life of citrus juices	67
2.4 Citrus juice flavor enhancement with natural citrus volatiles	71
2.5 Pectic substances and relationship of citrus enzymes to juice quality	83
2.6 Effect of time, temperature and other factors on citrus products	85
3. Grape juice processing	88
3.1 History of grape juice processing in North America	88
3.2 Grape cultivars	88
3.3 The chemistry of grape juice	89
3.4 Modern grape juice processing	92
3.5 Process alternatives	101
4. Tropical fruit juices	106
4.1 Introduction	106
4.2 Guava	107
4.3 Mango	110
4.4 Passionfruit	114
4.5 Pineapple	117
4.6 Other tropical fruits	121
4.7 Tropical fruit juices in Europe today	125
4.8 The future	127
5. Growing and marketing soft fruit for juices and beverages	129
5.1 Introduction	129
5.2 Selling the fruit crop: the options	129
5.3 Producing the soft fruit crop	134
5.4 Blackcurrants	135
5.5 Control of fruit pests and diseases	142
5.6 Pests and diseases of blackcurrants	143
5.7 Other soft fruits	147
5.8 Storing fruit for processing	149
5.9 The future-blackcurrant research and development (R&D)	151

6	Apple juice	153
6.1	General background	153
6.2	Natural style and opalescent juices	158
6.3	Clarified juice and concentrate	160
6.4	Authentication and adulteration	170
6.5	Composition	174
6.6	Juice tests	191
6.7	Note	192
7	Equipment for extraction of soft and pome fruit juices	197
7.1	Introduction: modern juice processing methods	197
7.2	Juice extraction systems	198
7.3	Pre-treatment with pectolytic enzymes	208
7.4	Post-press clarification	209
7.5	Concentration/aroma recovery	213
7.6	Pasteurisation	217
7.7	Fruit juice plant layout	218
7.8	Summary	220
8	Processing of citrus juices	221
8.1	Introduction	221
8.2	Fruit harvesting and transport	222
8.3	Unloading and storage of fruit	222
8.4	Fruit transfer from storage bins to extractors	227
8.5	Juice extraction and finishing	230
8.6	Juice processing for pasteurized single strength	235
8.7	Juice processing for concentrate	236
8.8	Essence recovery	243
8.9	Chilled juice from concentrate	244
8.10	Pulpwash	245
8.11	Frozen pulp processing	246
8.12	Manufacture of citrus cold-pressed oil	246
8.13	Manufacture of livestock feed from citrus peel	247
9	Juice enhancement by ion exchange and adsorbent technologies	253
9.1	Overview	253
9.2	History	253
9.3	Resin chemistry	254
9.4	Adsorbents	261
9.5	Applications	264
9.6	Summary	271
10	Processing systems for fruit juice and related products	274
10.1	Introduction	274
10.2	Design parameters	274

10.3	Plant configuration	279
10.4	Other parameters for juice processing	286
10.5	New developments and technologies	287
11	Packaging systems for fruit juices and non-carbonated beverages	290
11.1	Introduction	290
11.2	The cold fill fresh system	290
11.3	The hot fill system	292
11.4	Filling equipment for gable top cartons	294
11.5	Aseptic Pure-Pak	297
11.6	Packing materials for gable top cartons	298
11.7	Product protection and product/pack interaction	304
11.8	Packaging of frozen concentrated juices (FCJ)	306
11.9	Filling in glass containers	306
11.10	Plastic containers and pouches	308
12	The formulation of sports drinks	310
12.1	Introduction	310
12.2	Sports drinks	311
12.3	The effect of exercise	313
12.4	Physiological considerations	319
12.5	The essentials of a sports drink	320
12.6	Formulation considerations	322
12.7	Other nutrients	327
13	Nutritional value and safety of processed fruit juices	331
13.1	Introduction	331
13.2	Composition of fruit juices	332
13.3	Composition of individual fruit juice products	335
13.4	Levels of consumption and nutritional significance	339
13.5	Fruit juice and dental caries/erosion	342
13.6	Fruit juice safety	344
14	Legislation controlling production, labelling and marketing of fruit juices and fruit beverages	360
14.1	Fruit juices, concentrated fruit juices and fruit nectars	360
14.2	Non-carbonated fruit drinks and beverages	372
15	Water and effluent treatment in juice processing	386
15.1	Water treatment	386
15.2	Effluent management and treatment	396
	Index	423
