

CONTENTS

Introduction	1
HISTORICAL AND GEOGRAPHICAL BACKGROUND	1
BOTANICAL BACKGROUND	3
CHEMICAL CHANGES DURING MATURATION	13
COMPOSITION OF THE RIPE SEED	15
1. Harvesting, curing and yield	19
HARVESTING	19
TRANSPORTATION OF THE UNFERMENTED BEANS	22
INFLUENCE OF INSECT PESTS AND DISEASES ON QUALITY	25
POD BREAKING	27
FERMENTATION	33
TRADITIONAL METHODS	36
METHODS EMPLOYED IN PRODUCING COUNTRIES	42
FACTORS CONCERNED IN FERMENTATION	51
RECOVERY AFTER FERMENTATION AND DRYING	71
2. Changes during fermentation	74
CHANGES IN THE PULP	74
CHANGES IN THE COTYLEDONS	84
POLYPHENOLS AND QUALITY	93
PREVENTION OF OCCURRENCE OF SLATY AND DEEP PURPLE BEANS	97
DEVELOPMENT OF CHOCOLATE FLAVOR AND AROMA	98
ROLE OF THE POLP	101
3. Other aspects of fermentation	106
New METHODS	106
COMPARATIVE COSTING ANALYSES FOR DIFFERENT METHODS	110
SMALL-SCALE FERMENTATION	117
REFERMENTATION	121
POSTFERMENTATION TREATMENT	121
4. Drying	123
NATURAL DRYING	123
EQUIPMENT USED FOR NATURAL DRYING IN VARIOUS COUNTRIES	126
ARTIFICIAL DRYING	130
DRYING COSTS	133
NONMECHANICAL DRIERS	135
SAMOAN COCOA DRIER	135

MECHANICAL DRIERS	143
CRITERIA OF DRYNESS	145
METHODS OF DETERMINING MOISTURE CONTENT OF DRIED BEANS	145
INSTRUMENTS FOR MOISTURE DETERMINATION	146
CHEMICAL AND BIOCHEMICAL ASPECTS OF DRYING	150
PREDRYING TREATMENT	152
5. Storage	154
FUNGAL ATTACK	154
INSECT ATTACK	159
CONTROL MEASURES	162
CHANGE IN PURPLE-BEAN CONTENT ON STORAGE	164
6. Sorting and grading	165
DESCRIPTION OF DEFECTS IN FERMENTED AND DRIED COCOA	165
METHOD OF VISUAL ASSESSMENT OF FERMENTED COCOA (CUT TEST)	170
STANDARDS FOR COCOA GRADING	171
FAO RECOMMENDATIONS ON QUALITY AND GRADING	174
QUALITY ASSESSMENT	179
7. General conclusions	182
MANUFACTURERS' REQUIREMENTS	186
Glossary	189
Appendixes	190
A. TROPICAL COCOA RESEARCH ESTABLISHMENTS	190
B. REFERENCES TO ANALYTICAL METHODS APPLIED TO COCOA	191
References	192
Some supplementary references of important literature	202
