

# Contents

Preface, xi

Introduction: Waste Control Philosophy, xiii  
Zero Discharge, xiii  
Ask the Right Questions, xiv

Chapter 1. Who Is Watching the Store?, 3  
Return on Investment (ROI), 3

Chapter 2. Why Waste Flows Need to Be Inventoried, 7  
Inventory Frequency, 7  
Check Waste Temperature, 8  
Understanding the Problem, 11  
Waste Source, 11  
Cow Water, 12  
Water Quality, 13  
Accounting Techniques, 14

Chapter 3. In-Plant Monitoring, 17  
Estimating Wastage, 17  
Sampling Waste Streams, 18  
Do Not Fool Yourself, 21  
Solid Wastes Need Attention, 21

Chapter 4. How to Carry Out a Management Scheme, 25  
Troubleshooting, 25  
Solid Waste, 26  
Guessing versus Knowing, 27  
How to Do the Job, 28  
Dollar Value, 29

- Loss Centers versus Profit Centers, 29
- Waste Discipline Is Everyone's Business, 30
  
- Chapter 5. Product Loss and Dollar Equivalents, 33
  - Recommendations, 34
  - Waste Monitoring and Cost Control, 35
  - Approximating Cost and Lost Pounds of BOD, 36
  
- Chapter 6. Improving the System, 41
  - Be Informed, 41
  - Treating Wastewater, 42
  - Overkill in Waste Systems, 44
  - Power Costs and Oxygen Uptake, 45
  - Value of Interpreting Analytical Data, 46
  - Automating Treatment Plants, 48
  - Composition, 49
  
- Chapter 7. Management Tools, 51
  - Control Charts in Managing Waste, 51
  - Interpretation of Trends, 52
  - Computers as Waste-Control Tools, 52
  - Waste Warden, 56
  - The Water Audit, 59
  - Statistical Process Control (SPC), 61
  - Product Loss in Waste Steam, 68
  - A Food Operation, 70
  - Control Systems/Laboratory, 72
  - Tests That Count, 73
  - Why Me?, 74
  
- Chapter 8. Converting Costs into Credits, 75
  - One Success Story, 75
  - Reuse Systems, 76
  - Acid/Alkali/Neutral, 76
  - Cleaning Technology Has Not Kept Pace, 77
  - Ideal Cleaning Methods, 78
  - Chemicals, 78
  - Importance of Cleaning Systems, 79
  - Spent Cleaning Liquids, 79
  - Other Cost-for-Credit Opportunities, 80
  - Energy Conservation via Waste Management, 81

- Chapter 9. Economics of Managing Food-Processing Waste, 85
- A Double-Edged Sword, 85
  - Sunk and Variable Costs, 86
  - Operating Costs, 86
  - Sharing Information, 87
  - Treatment Economics, 87
  - Sewage Surcharge, 88
  - Pyrolysis, 89
  - Gas Production, 90
  - Anaerobic Systems, 91
  - Hardware, 92
  - Gas Collection, 92
  - Composting, 93
- Chapter 10. Training, 95
- Pride Is Important, 96
  - Poor Work Standards, 99
  - Managers and Authority, 100
  - Videos and Other Electronic Gadgets, 101
  - Long-Term Training, 102
  - Production Management Training, 103
  - Critical Time, 103
- Chapter 11. Unconventional Techniques to Deal with Waste Recovery or Treatment Schemes, 105
- Oily Wastes, 105
  - Clam Wash Water, 106
  - Fish Scales, 108
  - Egg Breaking Wastes, 110
  - Reclamation and Hot/Cold Water Use, 112
  - Membrane Systems, 113
  - A Toxin-Free Water Supply, 116
  - Food from Waste, 117
  - Salt Whey in Egypt, 118
  - Raising Eyebrows and Monuments, 119
  - Winter Coldness for Refrigeration, 120
  - Is My Air Cold Enough?, 120
- Chapter 12. Layman's Overview of Treating Waste, Wastewater, and Solid Waste, 127
- Water Supply, 127
  - Wastewater, 129
  - General Waste-Treatment Primer, 131

- Treatment, 132
- Wastewater Treatment, 133
- Secondary Waste Treatment, 133
- Secondary Treatment, 134
- Sludge, 134
- Stabilized Material, 134
- Sludge Use, 136
- Sea and Land Disposal, 136
- Animal Feed, 137
- The Quick Fix, 137
- The Biological System, 138
- Bioaugmentation, 140
- Looking Ahead, 141
- What Goes Around Comes Aground, 141
- Changes, 141
- Environmental Concerns, 142
- Cooperative Systems, 142
- The Treatment System, 144
- Segregation of High BOD Water, 145
- Final Analysis, 146

**Chapter 13. How to Seek and Gain Help to Solve Waste Problems, 147**

- Selection of Sites and Plant Types, 148
- Consultants, 150
- Large and Small Organizations, 150
- Suppliers, 151
- Government Agencies, 152
- Colleges, Universities, and 2-Year Programs, 152
- Trade Organizations, 154
- Present and Future, 154
- Libraries and the Internet, 155
- Local Wastewater Treatment Plants, 156
- Select Informational Sources, 156
- Industrial Waste Conferences, 157

**Chapter 14. Self-Test, 159**

- Can You Pass This Test?, 159

**Appendix: Answers to Examination, 165**  
**Glossary, 173**
