

CONTENTS

PREFACE

1. The Systems Approach	1
2. Mechanical Systems	4
3. Power Transmission	10
4. Hydraulic and Fluid Systems	18
5. Electrical Systems	64
6. Heating Systems for Food Processing Plants	85
7. Steam Generation	108
8. Refrigeration and Cooling Systems	128
9. Temperature Measurement and Control	188
10. Water Quality, Treatment and Utilization	207
11. Waste Disposal	224
12. Lubrication	228
13. Meterials handling	295
14. Automation and Computer Systems	321
15. Food Plant Design	339
16. Energy	372
17. Safety and Fire Protection Systems	396
APPENDIX	415
INDEX	443
