

**CONTENTS**

1. The Structure and Properties of Collagen	1
2. The Structure and Composition of Collagen Containing Tissues	32
3. Chemical Constitution of Gelatin	73
4. The Physical Chemistry of Gelatin in Solution	109
5. Relationship Between Collagen and Gelatin	138
6. The Gelatin Gel and the Sol-Gel Transformation	179
7. The Chemical Reactivity of Gelatin	209
8. The Physical Properties of Gelatin	250
9. Raw Materials	295
10. Technology of Gelatin Manufacture	315
11. Uses of Gelatin in Edible Products	366
12. Uses of Collagen in Edible Products	396
13. Technical and Pharmaceutical Uses of Gelatine	414
14. Swelling, Adsorption and the Photographic Uses of Gelatin	439
15. The Chemical Examination of Gelatins	476
16. Physical Tests for Gelatin and Gelatin Products	508
