

## CONTENTS

	PAGE
INTRODUCTION .. .. .	1
<b>PART I: GENERAL PROCEDURE</b> .. .. .	<b>1</b>
Selection and preparation of the fruit .. .. .	1
Drying .. .. .	4
Packaging and storage .. .. .	6
<b>PART II: PLUMS</b> .. .. .	<b>8</b>
Introduction .. .. .	8
Selection and preparation of the fruit .. .. .	8
Drying .. .. .	10
Quality of the freshly dehydrated plums .. .. .	11
Storage properties of dehydrated lye-dipped plums .. .. .	13
<b>PART III: APPLES</b> .. .. .	<b>21</b>
Introduction .. .. .	21
Selection and preparation of the fruit .. .. .	21
Drying .. .. .	22
Quality of the freshly dehydrated apples .. .. .	22
Storage properties of dehydrated apples .. .. .	27
<b>PART IV: PEARS</b> .. .. .	<b>29</b>
Introduction .. .. .	29
Selection and preparation of the fruit .. .. .	29
Drying .. .. .	29
Quality of the freshly dehydrated pears .. .. .	29
Storage properties of dehydrated pears .. .. .	32
<b>PART V: CHERRIES</b> .. .. .	<b>35</b>
Introduction .. .. .	35
Selection and preparation of the fruit .. .. .	35
Drying .. .. .	35
Quality of the freshly dehydrated cherries .. .. .	35
Storage properties of dehydrated cherries .. .. .	35
<b>APPENDIX I: METHODS USED FOR THE DETERMINATION OF WATER IN DRIED FRUITS</b> .. .. .	<b>37</b>
<b>APPENDIX II: METHOD USED FOR THE DETERMINATION OF SULPHUR DIOXIDE IN DRIED FRUITS</b> .. .. .	<b>39</b>
<b>APPENDIX III: REFERENCES</b> .. .. .	<b>41</b>
