

CONTENTS

Preface	v
List of Contributors	xi
1. An Introduction to the Irradiation Processing of Foods	1
2. Detection of Irradiation by Thermo – and Chemiluminescence	19
3. Consumer Acceptance of Irradiated Foods in the United States	61
4. Current Status of Food Irradiation in Europe	87
5. Consumer Acceptance of Irradiated Foods	97
6. Physicochemical Methods for the Detection of Food Irradiation	129
7. Comparative Effectiveness of Gamma-rays and Electron Beams in Food Irradiation	169
