

CONTENTS

List of Contributors	ix
Preface	xv
Chapter 1. Introduction: Food Irradiation Moving On <i>Joseph Borsa</i>	3
Chapter 2. Advances in Gamma Ray, Electron Beam, and X-ray Technologies for Food Irradiation <i>Marshall R. Cleland</i>	11
Chapter 3. Regulation of Irradiated Foods and Packaging <i>George H. Pauli</i>	37
Chapter 4. Toxicological Safety of Irradiated Foods <i>Christopher H. Sommers, Henry Delincée, J. Scott Smith, and Eric Marchioni</i>	43
Chapter 5. Consumer Acceptance and Marketing of Irradiated Foods <i>Ronald F. Eustice and Christine M. Bruhn</i>	63
Chapter 6. Detection of Irradiated Foods <i>Eric Marchioni</i>	85
Chapter 7. Dosimetry for Food Processing and Research Applications <i>Kishor Mehta and Kevin O'Hara</i>	105
Chapter 8. Mechanisms and Prevention of Quality Changes in Meat by Irradiation <i>Doug U. Abn and E.J. Lee</i>	127
Chapter 9. Irradiation as a Phytosanitary Treatment for Fresh Horticultural Commodities: Research and Regulations <i>Peter A. Follett and Robert L. Griffin</i>	143

Chapter 10. Low-Dose Irradiation of Fresh and Fresh-Cut Produce: Safety, Sensory, and Shelf Life <i>Brendan A. Niemira and Xuetong Fan</i>	169
Chapter 11. Irradiation of Seafood with a Particular Emphasis on <i>Listeria monocytogenes</i> in Ready-to-Eat Products <i>Denise M. Foley</i>	185
Chapter 12. Ionizing Radiation of Eggs <i>I. Álvarez, B.A. Niemira, X. Fan, and C.H. Sommers</i>	199
Chapter 13. Irradiation Treatment of Nuts <i>Akua Kwakwa and Anuradha Prakash</i>	221
Chapter 14. Irradiated Ground Beef for the National School Lunch Program <i>Xuetong Fan</i>	237
Chapter 15. Potential Applications of Ionizing Radiation <i>Myung-Woo Byun, Cheorun Jo, and Ju-Woon Lee</i>	249
Chapter 16. A Future Uncertain: Food Irradiation from a Legal Perspective <i>Denis W. Stearns</i>	263
Chapter 17. Technical Challenges and Research Directions in Electronic Food Pasteurization <i>Suresh D. Pillai, Les Braby, and Joe Maxim</i>	279
Index	289
