Food Powder Properties

- 1 The Role of Food Powders 3
Joseph Marinelli
- 2 Mixtures of Food Powders and Particulates 27
Micha Peleg
- 3 Physical and Chemical Properties of Food Powders 39
Gustavo V. Barbosa-Cánovas and Pablo Juliano

Food Powder Processing

- 4 Handling and Processing of Food Powders and Particulates 75
Enrique Ortega-Rivas
- 5 Rotary Drum Processing 145
A. A. Boateng
- 6 Supercritical Fluid Processing to Control Particle Size of Food Ingredients 167
Peggy M. Tomasula
- 7 Dry Coating 179
E. Teunou and D. Poncelet
- 8 Fluid-Bed Coating 197
E. Teunou and D. Poncelet

Powder Handling and Analysis

- 9 Particle Size Analysis of Food Powders 215
Patrick O'Hagan, Kerry Hasapidis, Amanda Coder, Heather Helsing and Greg Pokrajac
- 10 Food Powder Flowability 247
John J. Fitzpatrick
- 11 Phase Transitions During Food Powder Production and Powder Stability 261
Bhesh R. Bhandari and Richard W. Hartel

12 Blending, Segregation, and Sampling 293
Scott A. Clement and James K. Prescott

13 Powder Flow Properties 331
Kerry Johanson

Food Powder Ingredients

14 Functional Properties of Milk Powders 365
David Oldfield and Harjinder Singh

15 Milk Powder 387
Alan Baldwin and David Pearce

16 Properties of Culinary Powders: Salt and Sugar 435
C. I. Onwulata

17 Cocoa 451
Leanne de Muijnck

Encapsulated Food Powders

18 Spray-Dried Microencapsulated Fat Powders 477
M. K. Keogh

19 Single- and Double-Encapsulated Butter Oil Powders 485
C. I. Onwulata

20 Milk Fat Powders Encapsulated in Sugars and Starches 495
C. I. Onwulata
