<i>Preface to the English-Language Edition</i>	iii
<i>Preface to the German Edition</i>	v
<i>About the Translator</i>	vii
<i>Acronyms</i>	xi
1 Basic Definitions	1
1.1. Colors and seeing colors	1
1.1.1. Fluorescence and optical whiteners	2
1.1.2. Interference	3
1.2. Additives and subtractive colorant blending	3
1.3. Colors and perceptions	4
1.4. Color systems	6
1.5. Coloring agents, colorants and pigments	7
1.6. Systematic of colorants	11
1.6.1. The color index	11
1.6.2. The EU number	12
2 Food Coloration	13
2.1. Food coloration—why?	13
2.2. Technical possibilities	14
2.3. Coloring ingredients	14
2.4. Legal basis	15
2.4.1. European Union	15
2.4.2. Countries outside the European Union	31
2.4.3. United States	31
3 Drug Coloration	37
3.1. The importance of drug coloration	37
3.2. Legal requirements	37
3.2.1. European Union/Federal Republic of Germany	37
3.2.2. Countries outside the European Union	38
4 The Coloration of Cosmetic Products	39
4.1. The importance of color in cosmetic products	39
4.2. Technological possibilities	39
4.3. Legal requirements	39
4.3.1. European Union/Federal Republic of Germany	39
4.3.2. Countries outside the European Union	45
5 The Coloration of Food, Drugs and Cosmetics in the Public Discussion	47
6 Product Development	49
6.1. Processing indications	50
6.1.1. Soluble colorants	50
6.1.2. Pigments and coloring paints	51
6.1.3. Special preparations	52
6.2. Food (a selection)	52
	∞

6.3	Drugs (a selection)	
6.4	Cosmetic products	
6.5	Stability tests	
7	Safety and Quality	63
7.1.	Toxicology and dermatology	63
7.2.	Quality assurance	63
7.3.	Colorimetry and photometry	64
7.3.1.	Principles of a spectral photometer	64
7.3.2.	Evaluation	67
7.4.	Measuring color	68
7.4.1.	Basics	68
7.4.2.	Determination	
7.4.3.	Calculation and evaluation	
8	Analysis	77
8.1.	Purity requirements	77
8.1.1.	Colorants for food and drugs	77
8.1.2.	Colorants for cosmetic products	80
8.2.	Identification of colorants	80
8.2.1.	Water-soluble colorants for food and cosmetics	80
8.2.2.	Oil-soluble food and cosmetic colorants	84
8.2.3.	Aluminum lakes	85
8.2.4.	Pigments	85
8.2.5.	Isolation of the coloring agent in the finished product and its identification	88
9	Data Sheets of Colorants for Food, Drugs and Cosmetics	91
9.1.	Explanations of the data sheets	91
9.1.1.	Names	91
9.1.2.	Chemical name	92
9.1.3.	Color and solubility	92
9.1.4.	Chromatography	92
9.1.5.	Spectral photometry	92
9.1.6.	Major applications	92
9.1.7.	Toxicological and dermatological information	92
9.1.8.	Certification status	93
10	Literature	369
10.1.	General information	369
10.2.	Food	370
10.3.	Drugs	371
10.4.	Cosmetics	372
10.5.	Analysis and color determination	372
10.6.	Food legislation	374
10.6.1.	Food	374
10.6.2.	Cosmetics	375
