
Contents

Chapter 1

- Food Antimicrobials — An Introduction..... 1
P. Michael Davidson and A.L. Branen

Chapter 2

- Sodium Benzoate and Benzoic Acid... 11
John R. Chipley

Chapter 3

- Sorbic Acid and Sorbates..... 49
Jarret D. Stopforth, John N. Sofos, and Francis F. Busta

Chapter 4

- Organic Acids..... 91
Stephanie Doores

Chapter 5

- Sulfur Dioxide and Sulfites 143
Cornelius S. Ough and Lillian Were

Chapter 6

- Nitrite 169
R. Bruce Tomnkin

Chapter 7

- Nisin 237
Linda V. Thomas and Joss Delves-Broughton

Chapter 8

- Natamycin 275
Joss Delves-Broughton, Linda V. Thomas, Craig H. Doan, and P. Michael Davidson

Chapter 9

- Parabens..... 291
P. Michael Davidson

Chapter 10

- Dimethyl Dicarboxylate and Diethyl Dicarboxylate 305
David A. Golden, Randy W. Worobo, and Cornelius S. Ough

Chapter 11	
Medium-Chain Fatty Acids and Esters.....	.327
<i>Jon J. Kabara and Douglas L. Marshall</i>	
Chapter 12	
Lysozyme361
<i>Eric A. Johnson and Ann E. Larson</i>	
Chapter 13	
Bacteriocins with Potential for Use in Foods	
<i>Dallas G. Hoover and Haiqiang Chen</i>	
Chapter 14	
Naturally Occurring Compounds — Plant Sources429
<i>Aurelio López-Malo Vigil, Enrique Palou, and Stella M. Alzamora</i>	
Chapter 15	
Naturally Occuring Compounds — Animal Sources453
<i>Jarret D. Stopforth, Panos N. Skandamis, P. Michael Davidson, and John N. Sofos</i>	
Chapter 16	
Sanitizers: Halogens, Surface-Active Agents, and Peroxides507
<i>Bruce R. Cords, Scott L. Burnett, John Hilgren, Matthew Finley, and Joshua Magnuson</i>	
Chapter 17	
Indirect and Miscellaneous Antimicrobials	.573
<i>Leora A. Shelef and Julie Seiter</i>	
Chapter 18	
Antibiotic Residues in Foods and Their Significance.599
<i>Stanley E. Katz and Paula Marie L. Ward</i>	
Chapter 19	
Update on Hurdle Technology Approaches to Food Preservation.	
<i>Lothar Leistner and Grahame W. Gould</i>	
Chapter 20	
Mechanisms of Action, Resistance, and Stress Adaptation	
<i>A.D. Russell</i>	
Chapter 21	
Methods for Activity Assay and Evaluation of Results659
<i>Aurelio López-Malo Vigil, Enrique Palou, Mickey E. Parish, and P. Michael Davidson</i>
