

**CONTENTS**

Introduction	15
Chapter I Heterocyclic Aroma Compounds Precursors	17
Chapter II Heterocyclic Aroma Compounds in Foods: Occurrence and Organoleptic Properties	72
Chapter III Mechanisms of Formation of Heterocyclic compounds in Maillard and Pyrolysis Reactions	151
Chapter IV General Synthetic Methods for Heterocyclic Compounds used for flavourings	208
Chapter V Computer Application of Non-Interactive Program of Simulation of Organic Synthesis in Maillard's Reaction: A Proposition for New Heterocyclic Compounds for Flavours	249
Chapter VI Recent Techniques in the Analysis of Heterocyclic Aroma Compounds in Foods	262
Chapter VII Mass Spectrometry of Heterocyclic Compounds used for flavouring	305
Chapter VIII The Legislation of Flavours	343
Index	363
