

TABLE OF CONTENTS

	<u>Page</u>
INTRODUCTION	ix
LIST OF PARTICIPANTS	xi
SPECIFICATIONS	
Acesulfame potassium	3
Amaranth	5
Ammonium carbonate	7
Ammonium hydrogen carbonate	9
Ammonium phosphate, dibasic	11
Ammonium polyphosphates	13
Annatto extracts	15
Anoxomer	24
Beet red	49
Bone phosphate	53
Butylated hydroxyanisole	55
Calcium polyphosphates	58
Carmines	60
Chlorophyllin copper complex, sodium and potassium salts	64
Citral	66
Curcumin	68
Diethyl tartrate	71
Estragole	73
Ethyl cellulose	77
Ethyl formate	80
Ethyl heptanoate	82
Ethyl lactate	83
Eugenol	85
Eugenyl methyl ether	87
Grape skin extract	89
Gum arabic	93

	<u>Page</u>
alpha-Ionone	96
beta-Ionone	98
Isopropyl acetate	100
Linalool	102
Linalyl acetate	105
Lithol rubine BK	107
DL-Magnesium lactate	112
L-Magnesium lactate	114
Magnesium phosphate, dibasic	116
Magnesium silicate (synthetic)	118
Modified starches	121
Nitrogen	137
Patent Blue V	139
Pentapotassium triphosphate	142
Polydimethylsiloxane	147
Polyvinylpyrrolidone	150
Potassium polyphosphates	154
Quinine hydrochloride	157
Quininesulfate	160
Quinoline yelluw	163
Saccharin	166
Sodium aluminium phosphate, acidic	170
Sodium aluminium phosphate, basic	172
DL-Sodium hydrogen malate	174
Sorbitan monolaurate	177
Sorbitan monooleate	179
Sorbitol	181
Stearyl monoglyceridyl citrate	185
Streptomyces fradiae " protease	190
Succinylated monoglycerides	191
Sucrose acetate isobutyrate	194
Sunset yelluw FCF	197
1,2,3-Trichlorotrifluoroethane	199

	<u>Page</u>
Tumeric	202
Annex 1 - Methods of analysis of certain food colours	205
Annex 2 - Method of analysis of cyclic phosphates (total)	218
Annex 3 - Infra-red spectra of certain food additives	221
Annex 4 - Methods of analysis of sorbitan esters	228

CONTENT BY MAJOR FUNCTIONAL USES

	<u>Page</u>
<b>I. <u>BUFFERING AGENTS, SALTS</u></b>	
Ammonium carbonate . . . . .	7
Ammonium phosphate dibasic . . . . .	11
Calcium polyphosphates . . . . .	58
DL-Magnesium lactate . . . . .	112
L-Magnesium lactate . . . . .	114
Pentapotassium triphosphate . . . . .	142
DL-Sodium hydrogen malate . . . . .	174
<b>II. <u>EMULSIFIERS, THICKENING AGENTS, STABILIZERS</u></b>	
Bone phosphate . . . . .	53
Calcium polyphosphates . . . . .	58
Gum arabic . . . . .	93 ✓
Modified starches . . . . .	121
Polyvinylpyrrolidone . . . . .	150
Potassium polyphosphates . . . . .	154
Sodium aluminium phosphate, basic . . . . .	172
Sorbitan monolaureate . . . . .	177 ✓
Sorbitan monooleate . . . . .	179 ✓
Stearyl monoglyceridyl citrate . . . . .	185 ✓
Succinilated monoglycerides . . . . .	191
<b>III. <u>FLAVOURING AGENTS</u></b>	
Citral . . . . .	66
Diethyl tartrate . . . . .	71
Estragole . . . . .	73
Ethyl formate . . . . .	80
Ethyl heptanoate . . . . .	82

	<i>Page</i>
Ethyl lactate . . . . .	83
Eugenol . . . . .	85
Eugenyl methyl ether . . . . .	87
alpha-Ionone . . . . .	96
beta-Ionone . . . . .	98
Isopropyl acetate . . . . .	100
Linalool . . . . .	102
Linalyl acetate . . . . .	105
Quinine hydrochloride . . . . .	157
Quinine sulfate . . . . .	160
IV. <u>FOOD COLOURS</u>	
Amaranth . . . . .	5
Annatto extracts . . . . .	15
Beet red . . . . .	49
Carmines . . . . .	60
Chlorophyllin capper complex, Sodium and potassium salts . . . . .	64
Curcumin . . . . .	68
Grape skin extract . . . . .	89
Lithol rubine BK . . . . .	107
Patent Blue <u>V</u> . . . . .	139
Quinolin yellow . . . . .	163
sunset yellow FCF . . . . .	197
Turmeric . . . . .	202
V. <u>SWEETENING AGENTS</u>	
Acesulfame potassium . . . . .	3
Saccharin . . . . .	166
Sorbitol . . . . .	181
