CONTENTS

	page
Section A. Specifications of certain food additives (uses other than as flavouring agent)	
Ammonium salts of phosphatidic acid	1
a-Amylase and glucoamylase from <i>Aspergillus oryzae</i> , var.	5
a-Amylase from <i>Aspergillus oryzae</i> , var.	7
Amyloglucosidase from <i>Aspergillus niger</i> , var.	9
Aluminium potassium sulfate	13
Aluminium sulfate (Anhydrous)	17
Aspartame-acesulfame salt	19
Benzoyl peroxide	23
Blackcurrant extract	25
Caramel colours	29
Carmines	39
Cellulase from <i>Penicillium funiculosum</i>	43
Cochineal extract	47
Curcumin	49
Diatomaceous earth	51
Diethyl ether	53
β -Glucanase from <i>Trichoderma harzianum</i>	55
Guaiac resin	57
Hemicellulase from <i>Aspergillus niger</i> , var.	59
Microcrystalline cellulose	65
Microcrystalline wax	67
Nitrous oxide	79
Oxystearin	83
Pectinase from <i>Aspergillus niger</i> , var.	85
Pentasodium triphosphate	87
Protease from <i>Aspergillus oryzae</i> , var	91
Quillaia extracts	93
Rennet from <i>Rhizozucor</i> species	97
Shellac, bleached	99
Smoke flavourings	101
Sodium sulfate	107
Sorbitan monolaurate	109
Stearyl tartarate	111
D-Tagatose	115
Tagetes extract	117
Talc	119
d-a-Tocopherol, concentrate	121
Trehalose	125

Section B. Specifications of certain flavouring agents

Organization of the section for specifications of flavouring agents	127
Specifications of certain flavouring agents	128
Infra red (IR) and other spectra of certain flavouring agents	179
Gas chromatographic (GC) assay of flavouring agents	199

Section C. Principles governing the establishment and revision of specifications

General specifications for enzyme preparations	203
Determination of low levels of metals	203
Metals limits for emulsifiers	203
Tentative specifications for food additives (uses other than as flavouring agent)	205
Tentative specifications for flavouring agents	205
