Introduction	5
1. General considerations	6
1.1 General observations	6
1.2 Principles	7
2. Specifications	7
2.1 Flavouring substances	7
2.2 Non-nutritive sweetening agents	8
3. Biological data	8
3.1 Possible substitution of biochemical and metabolic studies for formal toxicity studies	8
3.2 Acute toxicity	9
3.3 Short-term and long-term studies	9
3.4 Additional information	9
3.5 Concept of acceptable daily intakes	9
4. Comments on monographs	11
4.1 Flavouring substances	12
4.2 Non-nutritive sweetening agents	13
5. Criteria to be used in grouping further flavouring substances according to priority	14
6. Recommendations to FAO and WHO	14
7. Recommendations to the Joint FAO/WHO Codex Alimentarius Commission	15
Annex 1. Reports and other documents resulting from previous meet- ings of the Joint FAO/WHO Expert Committee on Food Additives.	16
Annex 2. Acceptable daily intakes for man of some flavouring sub- stances and non-nutritive sweetening agents.	18
