

Contents

Preface.....	xi
---------------------	-----------

1. Challenges in Taste Research: Present Knowledge and Future Implications.....	1
Thomas Hofmann, Chi-Tang Ho, and Wilhelm Pickenhagen	

Molecular Physiology and Taste Coding

2. Insights into Taste Transduction and Coding from Molecular, Biochemical, and Transgenic Studies.....	26
Robert F. Margolskee	
3. Identification of Human Bitter Taste Receptors.....	45
Bernd Bufe, Ellen Schöley-Pohl, Dietmar Krautwurst, Thomas Hofmann, and Wolfgang Meyerhof	
4. Genetic Variation in Taste and Preferences for Bitter and Pungent Foods: Implications for Chronic Disease Risk.....	60
Beverly J. Tepper, Kathleen L. Keller, and Natalia V. Ullrich	
5. Genetic Dissection of Sweet Taste in Mice.....	75
A. A. Bachmanov, D. R. Reed, X. Li, and G. K. Beauchamp	
6. Biomimetic In Vitro Assay for the Characterization of Bitter Tastants and Identification of Bitter Taste Blockers.....	91
Stephen A. Gravina, Richard A. McGregor, Rita Nossoughi, John Kherlopian, and Thomas Hofmann	

Analytical Characterization and Structure–Activity Relationships

7. **The Taste Activity Concept: A Powerful Tool to Trace the Key Tastants in Foods.....**
Thomas Hofmann, Harald Ottinger, and Oliver Frank
8. **Chemistry of Theaflavins: The Astringent Taste Compounds of Black Tea.....**
Chi-Tang Ho, Shengmin Sang, and Jin Woo Jhoo
9. **Pungent and Tingling Compounds in Asian Cuisine.....**
Christophe C. Galopin, Stefan M. Furrer, and Andreas Goeke
10. **Structural Requirements for the Cooling Activity of Cyclic α -Keto Enamines.....**
Thomas Hofmann, Tomislav Soldo, and Harald Ottinger
11. **Stability of Cyclic α -Keto Enamines with Cooling Effect.....**
Christoph Cerny, Fabien Robert, and Renaud Villard

Taste-Active Peptides and Amino Acid Derivatives

12. **Savory Peptides Present in Moromi Obtained from Soy Sauce Fermentation of Yellow Soybean.....180**
Hanifah Nuryani Lioe, Anton Apriyantono, Dedi Fardiaz, Budiartman Satiawihardja, Jennifer M. Ames, and Elizabeth L. Inns
13. **Synthesis, Structure, and Activity of Novel Glycoconjugates Exhibiting Umami Taste.....195**
F. Robert, I. Blank, L. B. Fay, E. Beksan, T. Hofmann, and P. Schieberle
14. **Taste-Active Glycoconjugates of Glutamate: New Umami Compounds.....210**
Hedwig Schlichtherle-Cerny, Michael Affolter, and Christoph Cerny
15. **Application of Bacterial γ -Glutamyl-Transpeptidase to Improve the Taste of Food.....**
Hideyuki Suzuki and Hidehiko Kumagai

Flavor Interactions

16. **Effects of Viscosity on Flavor Perception:
A Multimodal Approach.....240**
David J. Cook, Tracey A. Hollowood, Elodie Pettelot,
and Andrew J. Taylor
17. **Effects of High-Fructose Corn Syrup on Perception
and Release of Flavors in Soft Drinks.....254**
Thomas N. Asquith and Robert L. Swaine, Jr.
18. **The Role of Esterified Compounds in the Development
of Staleness in Fresh-Cut Fruit.....263**
Olusola Lamikanra

Indexes

- Author Index.....277**
- Subject Index.....279**
