

CONTENTS

PART I: ECOLOGY

1. Clostridium botulinum and Other Clostridia that Produce Botulinum Neurotoxin	3
2. Clostridium botulinum in the Environment	21
3. Clostridium botulinum in Foods	53
4. Epidemiology of Human Foodborne Botulism	69
5. Worldwide Incidence and Ecology of Infant Botulism	105

PART II: CONTROL OF CLOSTRIDIUM BOTULINUM IN FOODS

6. Principles of Control	121
7. Control in Meat and Meat Products	177
8. Control in Fishery Products	209
9. Control in Fruits and Vegetables	233
10. Control in Dairy Products	261
11. Potential Hazards Associated with REPFEDS	279
12. Hazards from Northern Native Foods	305
13. Destruction of Botulinum Toxins in Foods and Water	323
14. Predictive Modeling	343

Index	407
